Don't Let This Generation Disappear

DVD running time 35 minutes (approximately) ISBN 978-0-9775214-1-8

This DVD is about recognizing the first signs of drug and alcohol use and their effects and is to be used as an information tool for parents and young people of Macedonian speaking background. It contains filmed scenes, interview segments, voice over and detailed information on various drugs, including street names, symptoms and potential risks.

Contact details or assistance to those who may be or have someone affected by drug use/abuse are listed within the DVD.

This project was produced by the Macedonian Community Welfare Association with Hybrid at Victoria University and DarBor Design and Photography and funded by the Victorian Multicultural Commission, City of Darebin and METROFILE.

Don't Let This Generation Disappear is the second multimedia project undertaken by the Macedonian Community Welfare Association (MCWA), after the Macedonian Immigrant Stories in Victoria.

The MCWA is a state wide, not-for-profit and community based organization established in Melbourne in 1983. The MCWA responds to the growing welfare needs of Macedonian speaking people by providing services and assisting mainstream organizations to address gaps in service provision. The MCWA relies entirely on funding from all levels of government to do this work.

In 2004 the MCWA was pleased to accept two Government of Victoria Awards for Excellence in Multicultural Affairs. These were the Award for Meritorious Service in the Community and the Award for Service Delivery to Multicultural Victoria – Aged Care.

For more information contact MCWA tel. (03) 9310 7566
